Participant's feedback - Maria José Fernández

On 08-11-23 I participated in Plasencia in a workshop with AICS Rome and the Association EUEXIA on a project called SPORT-ING.

We addressed the issue of BASKIN, a sport practiced by people with and without disabilities.

It owes its name to the inclusion of people with disabilities in the sport of basketball, BASK-IN.

In the meeting we discussed several topics:

- Good practices
- How to improve the participation of all social sectors in sport.
- Dissemination of mixed/inclusive sports activities,
- Making a list of inclusive sports and rules to be applied in sports.

-Elaboration and realisation of sport activities and promotion of citizenship.

-Collaboration between sports associations that can work in a NETWORK.

-Training of monitors and collaborators who will carry out the sports activities.

-Promoting Tolerance.

-To create a manual of sport terminology.

-To elaborate the rules of the game.

To achieve all these objectives we will follow the following steps:

-Soliciting funding and collaboration in sports activities from public and private entities.

Follow-up and evaluation of the activities.

-Development of projects at European level.

-Encouraging inclusive education in inclusive sports from an early age.

-Accessibility of spaces and materials to be used.

Once we concluded the meeting we visited the facilities of the Association, we had an approach with the people who were part of it.

Lastly, we played BASKIN. I thought it was a very interesting topic to discuss, as promoting and practising sport between people with and without disabilities creates strong links between all those who practise sport, helping to raise awareness of the existing problems in this area.

Plasencia, Spagna

Sport-IN-g - Praticando l'inclusione

Arrivo a Plasencia dopo un lungo viaggio. Fa freddo, ma è un freddo rinvigorente. La cittadina è medievale, carina.

8 novembre 2023

Trovata la Casa della Gioventù, il punto d'incontro. Ci spostiamo in una zona collinare, vicino, all'aria aperta. Degli uomini di tutte le età con disabilità cognitive ci accolgono. Sono molto felici di vederci e ci abbracciano. Mi toccano il cuore. C'è un ragazzo che mi chiede in continuazione le sigarette. Dice solo alcune frasi in spagnolo, io provo a rispondergli in italiano o in inglese. In qualche modo riusciamo a capirci. Sono tutti entusiasti all'idea della partita. Dei gatti chiatti si girano intorno a noi indisturbati.

Spiegazioni delle regole del Baskin

Lavoriamo a una guida sulle buone pratiche nello sport di squadra di inclusione. Quali sono le problematiche, le regole, come si svolge una partita. Parliamo del Baskin, delle sue origini. Io dico che i miei due nipoti lo praticano.

Visitiamo i laboratorio dove lavorano i ragazzi con disabilità; sono molto fieri. Fanno il riciclo delle bottiglie di vetro, dei tappi, e poi creano degli oggetti come delle cornici, delle casette, delle candele.

Alcuni oggetti sono molto carini, “muy preciosos”.

Giochiamo la partita di Baskin, giovani e vecchi, donne e uomini, normodotati e ragazzi disabili. Il tempo è dalla nostra parte, c'è il sole. Il Baskin ha la regola del cinque, chi è cinque non può attaccare chi è inferiore a lui. Questo porta uguaglianza e il divertimento è garantito: vedere questi ragazzi sorridere e giocare mi riempie di gioia, non importa che io non gioco bene. Sono un disastro per la precisione.
