## **GENERAL OBJECTIVE**

***increase the spread of green skills and practices within organizations active in the Erasmus+ world***

## **SPECIFIC OBJECTIVES**

- Promote the exchange of best practices between ecovillages and sustainability-focused entities with organizations active in the Erasmus+ world and engaged in European project planning.***
- Increase the involvement of ecovillages and sustainability-focused entities in international projects.***
- Provide visibility to ecovillages and introduce them, along with green and community practices, to those interested in experiencing alternative lifestyles.***

# RESULTS

- A Green EU Practices Training Course (TC) in which there will be an exchange of best practices between an organization active in the Erasmus+ context, two ecovillages, and an organization active in the promotion of alternative lifestyles.

- A Green Vademecum, that all partners will work on following the TC, which will be a guide to sustainability and will also contain a collection of sustainable practices that can be implemented within the framework of European projects. We expect that consulting the handbook can provide tools to all organizations interested in incorporating sustainability into their European projects, as well as in the organization of their own realities.

- Launching the EUcovillages.net Web Platform: This platform aims to be a reference point for all those ecovillages that would like to approach the world of European project planning and seek guidance and support. It also aims to be a place for organizations active in European project planning to find partners and ecological locations to carry out their projects.

# GANTT OF THE PROJECT

ACTIVITIES	2022		2023				2024			
	SEP/OCT	NOV/DEC	JEN/FEB	MAR/APR	MAY/JUN	JUL/AUG	SEP/OCT	NOV/DEC	JEN/FEB	MARCH
Project Management										
Kick off meeting										
Training Course "Green EU Practises"										
Green Vademecum										
Communication, Dissemination and Online Platform										
Closing Meeting
